

2025 Alternative Covered Drugs

WELLCARE COVERS OVER 40,000 DRUGS.

We strive to cover the most common drugs across all conditions. Below are some common drugs *not* covered by the plan, along with alternative drugs that *are* covered. If your patient is currently on a drug that is not covered, please see if the formulary alternatives listed below would work for your patient.

You can also check our plan's formulary (drug list) for a comprehensive listing of all drugs that are covered and any formulary restrictions that may apply.

Generics and authorized generics listed in the table below with the double asterisk (**) have the same active ingredients as the drug not covered on the formulary. If your patient has an *active* prescription for a drug *not* covered, they will still be able to access the listed double-asterisked drug without needing a new prescription.

 Drug(s) <i>not</i> covered on the Formulary	 Drug(s) covered on the Formulary	 Formulary restrictions
NovoLog	Insulin Aspart**	None
Fiasp, Humalog, Insulin Lispro	Insulin Aspart	None
NovoLog Mix 70/30	Insulin Aspart Mix 70/30**	None
Semglee (yfgn), Lantus	Insulin Glargine-yfgn pen**	None
Basaglar KwikPen, Levemir	Insulin Glargine-yfgn pen	None
Toujeo	Insulin Glargine U-300**	None

(continued)

For more than 20 years, Wellcare has offered a range of Medicare products, which offer affordable coverage beyond Original Medicare. Beginning Jan. 1, 2022, our affiliated Medicare product brands, including Allwell, Health Net, Fidelis Care, Trillium Advantage, and 'Ohana Health Plan transitioned to the newly refreshed Wellcare brand. If you have any questions, please contact Provider Relations.
